

# School Leavers Employment Support

## What is the SLES Program

The Bayley House SLES Program is a part-time 2 to 3 year NDIS funded program for students leaving school. It is designed to support school leavers to build skills for employment including, but not limited to; social skills, setting up a bank account, numeracy and literacy skills, organising a resume, interview skills, IT skills, safety in the workplace, independence at work, and travel training support.

“

*'I love having a job. It's enjoyable because I get to learn heaps of new skills and make new friends. It's great to be able to tell people that I have a job now. It makes me feel important, happy and positive. It feels really good to have achieved one of my goals.'*

”

- KATHERINE

## What are the Outcomes?

On completion of the program, you would expect to be ready to look for a job. You should have built the skills needed to apply and the confidence to do so. Bayley House will then connect you with a Disability Employment Service (DES) that will help you look for employment suited to your interests and skills.

## How do I join?

As a student, you can use SLES funding in your NDIS packages. You will need to make sure it's included so please talk to us before you apply for NDIS funding or before your next plan review.

### If you are interested it's as easy as 1,2,3

1. Complete the form provided to you
2. Come in for an interview/chat (with your support/advocate if you wish)
3. If we all agree that it's right for you, we'll send you a service agreement to sign and that's it!

Hello!
